

WLO - Mobile, AL

VHF-FM PHONE CALLS

Along Alabama's Intercoastal Waterway and inland river system, WLO Radio offers economical, fast, and efficient VHF-FM phone calls service to meet your marine communication requirements. You need only keep contact with one VHF operator from above Tuscaloosa to the Gulf of Mexico as several transmitter locations spaced along the Alabama river system provide a continuity of coverage for boating safety and convenience.

To utilize WLO Radio for your VHF-FM phone calls, please advise WLO of your vessel name and call sign and provide a billable number for the call. WLO Radio can bill calls to your home or business telephone number, collect, or to your AT&T or American Express credit card.
